

## THE CHARTERED MANAGEMENT ACCOUNTANT

CIMA is the only global management accounting body with chartered status. CIMA produces versatile professionals who are financially qualified business leaders. They have been assessed in a practical business setting and can apply their business skills in many different areas and roles in both the private and public sectors. Management accountants have broad management skills which place them in key roles at the heart of business, providing strategic direction and decision support.

## INTERNATIONAL INSTITUTE OF BUSINESS

Founded in 1993 as a non-profit, independent training and educational institution, nowadays IIB is the one of the acknowledged leaders of Business education in Ukraine.

The International institute of business offers CIMA Program courses since 2004. It is also the only registered educational CIMA center in Ukraine. The establishment of CIMA program in the International institute of business is based on 15-years experience of carrying out of the specialized programs and seminars in sphere of financial management.

# CIMA CHARTERED

## CIMA CHARTERED INSTITUTE OF MANAGEMENT ACCOUNTANTS

**CIMA, the Chartered Institute of Management Accountants, established in London in 1919, is the largest global professional institute and qualification body for Management Accountants.**

**CIMA is the most relevant international accountancy qualification for business. Chartered Management Accountants are financially qualified business leaders operating in all areas of the organisation. They create value by applying leading edge techniques with a commercial and forward looking focus, adapting to the changing needs of the business.**

### CIMA BENEFITS

- With its emphasis on strategic business skills, CIMA qualification **widens your career options**, in and outside of finance. CIMA provides more strategy, more management accounting than other professional accountancy qualifications;
- CIMA is the only accountancy **body that focuses primarily on business needs**. As a CIMA chartered management accountant, you'll be at the forefront of business planning, strategy and change across the sectors - industry, commerce, and the public sector and not-for-profit organisations;

■ CIMA is the **internationally recognised** professional qualification. It will give you fantastic career prospects and high earning potential. It could be your passport to global employment opportunities;

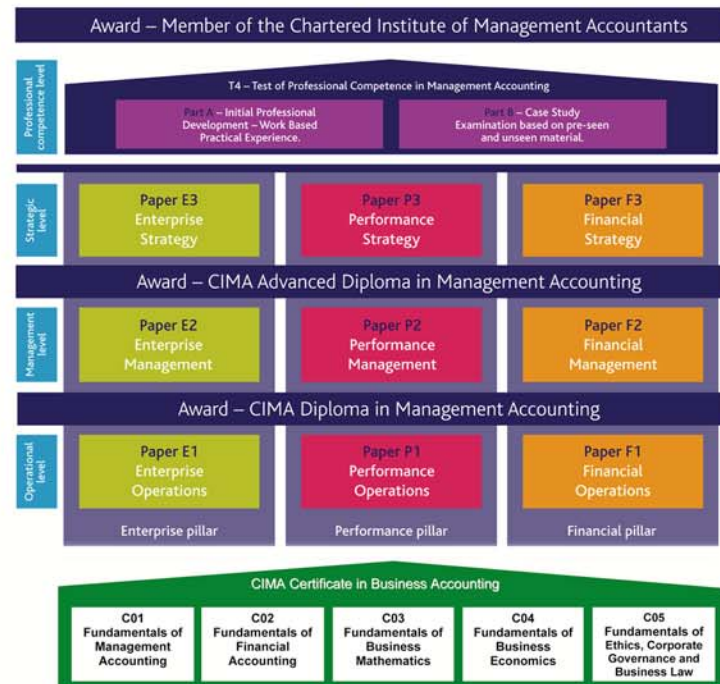

■ **Choice and flexibility** are key to the CIMA qualification. You can co-ordinate your training, career and lifestyle.

### WHO IS IT FOR?

For those who wish to develop a successful and diverse career in financial and business management, the Chartered Institute of Management Accountants (CIMA) qualification is ideal. This qualification is normally associated with accountants working in industry. CIMA is a broadly based qualification which develops key decision making, management, strategic and analytical skills rather than financial accounting, audit and tax.

### EMPLOYERS BENEFITS

- CIMA vision is to be the first choice for employers in the qualification and development of professional accountants in business. Institute works in partnership with thousands of forward thinking organisations worldwide, supporting them and their CIMA students in their studies and professional development. Many employers are increasingly choosing CIMA as the business qualification of choice for their staff.
- CIMA members drive success and create both shareholder and stakeholder value through a combination of the practical application of leading edge tools and techniques and an in-depth understanding of the businesses in which they operate. Whilst qualified in accounting and finance, their focus is commercial and forward looking, and thus they pre-empt and adapt to businesses' changing needs.

### DURATION OF STUDYING:

The duration of Business Certificate level studying is six months. Studying at Diploma + Advanced Diploma level occupies approximately one and a half year. The duration of Strategic Level studying is four months.

### THE BEGINNING OF STUDYING:

Lectures start in September and February every year. But students have an opportunity to assess on the program during the whole year.

### FORMAT OF TRAINING:

IIB offers studying during convenient time. Modular training is taking three times a month on Friday and Saturday.
